PURE SINE WAVE INVERTER

- output voltage
- input voltage
- output frequency
- low voltage protection
- overvoltage protection
- short circuit protection

Switch for charging or discharging Portable Power Pack

Sinus wave inverter
Output Power 3000W
Peak Power 6000W

Portable Power Pack

2xUSB port for charge small device 2x 20W

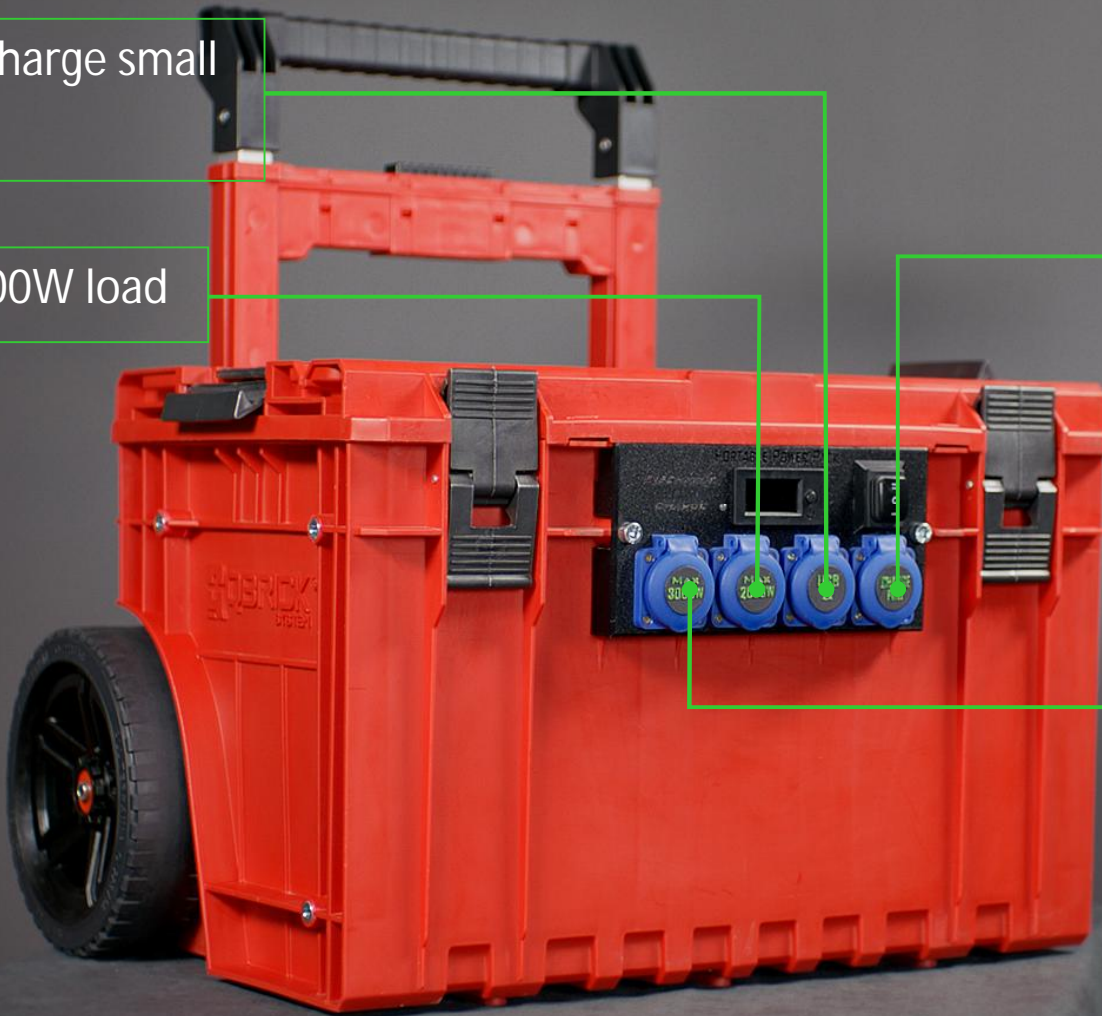

Port for max. 2000W load

Charge port 800W

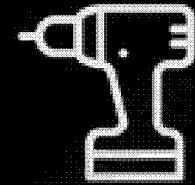

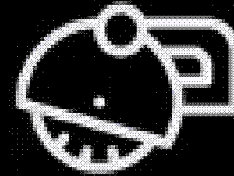

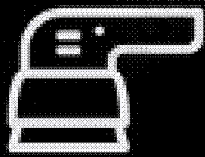

Fully charged in 3 hours for version 2280Wh = 4 x BXP570

All 230V AC application

Port for nominal power 3000W

Applications

40V system for tools and through a portable power pack 230V AC system for all applications.

That is **BXP**
